

# Our prioritization: avoidance of CO<sub>2</sub> emissions before reduction and compensation!

Our path to climate neutrality by 2035

Commitment to achievement of common goals

Mid 2022

in the context of strategic discussions / workshops & new projects

Common standards & mile stone plans

End 2022

Methodology for the determination of emissions & setting of stage targets

Climate neutral production

2024

in all  
  
Automotive Technology plants

CO<sub>2</sub> - neutrality

2035

throughout the supply chain

Steering of purchasing volume to sustainable suppliers, especially for new business awards
