Business Unit Uhde

Subject: Vacancy for IT service expert –
Data foundation (DFS01) – Reporting applications,
Mumbai

The role & responsibility along with the eligibility criteria are mentioned below:

IT service expert – DFS01- Reporting applications:

Functional Role:

- Coordination with departments / business regarding data provision (e.g. databases) and the target vision of the required reporting.
- Work closely with business stakeholders to understand reporting requirements, KPIs, and data dependencies.
- Develop, optimize, and govern MS Power BI Reporting
- Apply best-practice data visualization and performance tuning (M-Query, DAX)
- Continuous monitoring and quality management of ongoing reporting activities and projects, data sources, and data quality (e.g., avoiding redundant data structures, parallel data sources).
- Consolidating and data preparation to improve the data quality of a report before the actual report creation.
- Make technological adjustments to current BI systems to improve their performance using Dax Studio
- Maintain documentation of data models, definitions, processes, and report logic and audit readiness for reporting applications
- Work closely with data foundation platform team to ensure reporting is aligned with the strategy of the cluster.
- Given the global matrix IT organization and the associated international service teams you will be reporting to different Uhde stakeholders:
 - Functional and Disciplinary: IT service leader located in India
- You report service-specific KPIs and overall status to your respective IT service leader.
