BU thyssenkrupp Uhde

Subject: Vacancy for IT service leader – Data foundation (DFS02) – AI services

The role & responsibility along with the eligibility criteria are mentioned below:

### **IT service leader – DFS02) AI services:**

#### **Functional Role:**

- Lead the provisioning, maintenance and continuous improvement of AI related functionalities within Uhde IT (both standard software and Microsoft Azure based custom solutions).
- Integrate AI solutions into the existing Uhde IT software landscape and take responsibility for AI governance.
- Ensure a close alignment with relevant business stakeholders to develop AI functionalities to further improve efficiency in business processes.
- Compliance with regulatory policies.
- Continuously monitor performance and user feedback to identify opportunities for improvement.
- Ensure AI functionalities comply with internal security policies & standards and collaborate closely with other IT service clusters and units to ensure optimal end user experience and business value.
- Maintain documentation and audit readiness for AI tools and associated data sets and documentation.
- Evaluate new AI driven technologies and leverage them to create value for Uhde.
- Manage relationship with 3<sup>rd</sup> parties such as software vendors.
- Given the global matrix IT organization and the associated international service teams you will be reporting to different Uhde stakeholders:
- Functional: IT service owner located in Germany.
- Disciplinary: Leadership located in India.
- You report service-specific KPIs and overall status to your respective IT service owner.
- You are responsible for leading and coordinating the tasks of (international) IT service experts.

## **thyssenkrupp Uhde India Private Limited**

### **Eligibility:**

Qualification: Engineering Graduate – IT, Computer Science  
Experience: 10 + years of experience

### **Experience:**

- Strong expertise in AI methodologies and concepts, from Machine Learning to generative AI.
