

# tkIS India introduces Virtual Reality Safety Training Modules at IOCL n-butanol site

28.12.2021

The VR Safety Training Modules were inaugurated by Mr. Rohit Dawar (second from left) (CGM – Projects , Gujrat Refinery)

The  
inauguration  
was held on  
23<sup>rd</sup> Dec, '21

- tkIS India introduced the Virtual Reality (VR) Safety Training Modules at the IOCL n-butanol site at Dumad.
- Currently three safety modules viz. Working at Height, Working on Scaffolding, Electrical Safety are available.
- The VR modules require a Oculus Gadget that can be used by the construction personnel and offer them a realistic view, an effective learning and a better understanding of hazards & risks while working at sites.

- This training event was attended by Mr. Rohit Dawar ( CGM – Projects , Gujrat Refinery).
- Other dignitaries present were Mr.Kailash Chand ( GM – Projects) , Mr. S K Barua (DGM, Project) along with other senior IOCL officials & PMC (Worley) Team.
- From tkIS India, Mr. Abhishek Kumar, RCM and Mr.Indranil Chakraborty (Head OSH&E) were present at the event.

This is a step ahead for tkIS India and reaffirms its commitment to safety at all levels.
