

Integral management system policy

osh
because we care

We design, procure and manufacture production systems for the automotive and related industries.

We are committed to the safety of our employees, customers and visitors. Our goal is to achieve a zero incident operation, we value the prevention of occupational injuries and illnesses. We are committed to comply with all safety, health and environmental standards and requirements.

We are committed to achieving maximum benefits for our investors with minimum use of resources. We adhere to the principles of ISO9001, ISO14001 and ISO45001. We avoid harmful effects to the environment and give priority to pollution prevention.

We are committed to improve our activities in order to ensure that our product achieves reliability and easy maintainability. The continuous development of our employees is fundamental to our future success.

Our management analyzes the organization context, prioritizes and manages business and environmental risks and opportunities, setting objectives and monitoring them towards the achievement of results; carrying out preventive and corrective actions to ensure process accomplishment. We apply these activities to increase efficiency in our internal value chain and the satisfaction of our external business partners and other stakeholders.
