

# MACal 1100 Print & Cut Mirror Films

## The brilliant choice!

### MACal 1169 & 1179 Print & Cut are mirror-like printable films.

Their unique smooth silver and gold finish allows for top-of-the-range luxurious decoration of flat surfaces. They are compatible with most inkjet printing platforms (SB, Eco SB, UV, latex) and allow lean, fast and straightforward cutting with most plotters, as well as a fast weeding, even for small letters and fine lines. These materials provide a stunning 'mirror like' finish on both sides of the product for eye-catching designs.

MACal 1169 & 1179 Print & Cut are an outstanding choice for short to medium term marking applications and indoor or outdoor decorations.

### Advantages:

- Deep appealing metal look on both sides
- Two smooth finishes  
**MACal 1169 Print & Cut:**  
 silver/silver mirror film, gloss finish  
**MACal 1179 Print & Cut:**  
 gold/gold mirror film, satin finish
- Compatible with most inkjet printing platforms (SB, Eco SB, latex, UV)
- Flat, stable media, with excellent dimensional stability during printing and cutting
- Trouble-free computer cutting and fast weeding, even for small letters and fine lines
- Easy to weed without tearing
