

Materials Services  
Materials Processing Europe

# mpe edi deluxe.

Next level  
electronic data exchange.

thyssenkrupp

# Welcome to mpe edi deluxe.

With mpe edi deluxe, the test data of your material is automatically transferred and stored in your IT system. This eliminates the need for manual checking and archiving of paper and PDF files on your side.

## Advantages for you

- ➞ Time saving through automation
- ➞ Effective use of human resources
- ➞ Further development possibilities up to the introduction of inspection mechanisms (target/actual comparison of material properties)

Your customer advisor will be happy to answer any further questions you may have.
