Steel: Value Drivers

EBT / ROCE track record

million € / %

2003/04-2004/05 in the Group structure valid at that time

* excl. major nonrecurring items

Comments FY 2007/08

- Q4: Excellent results with lower volumes, higher costs partially compensated by higher prices and efficiency gains
- FY: Excl. major nonrecurring items EBT at record level; substantial rise in raw material costs compensated by higher prices and volumes as well as by significant efficiency gains

Outlook

- FY 08/09: Decrease in real and apparent demand in Europe anticipated
- Better relative performance expected due to strength of business model (premium grades, contract structure, multiple niche strategy)
- Mid-term growth perspectives for the industry remain intact

Steel: Output, Shipments and Revenues per Metric Ton

Crude steel output (TKS incl. share in HKM) 1,000 t/month

Shipments: Hot-rolled and cold-rolled products 1,000t/month

Average revenues per ton, indexed Q1 2004/2005 = 100

Stainless: Value Drivers

EBT / ROCE track record

million € / %

2003/04-2004/05 in the Group structure valid at that time

* excl. major nonrecurring items

Comments FY 2007/08

- Q4: Occurring buying resistance due to low nickel price and decreasing base prices
- FY: Lower earnings level due to lower base prices and lower capacity utilization in Q1 and Q4 partly compensated by efficient inventory management and hedging; shipments on higher level

Outlook

- FY 08/09: Challenging economic environment; low inventories, low base prices
- Mid-term perspective: Return to long-term average demand growth trend

Stainless: Output, Shipments and Revenues per Metric Ton

Crude steel output*

1,000 t/month

Technologies: Value Drivers

EBT / ROCE track record

million € / %

2003/04-2004/05 in the Group structure valid at that time

* excl. major nonrecurring items

Comments FY 2007/08

- Q4: Extraordinary EBT performance continued with strong contribution from all Business Units
- FY: Earnings on record level mainly driven by Plant Technology and Mechanical Components; focus on high margin business due to continued portfolio optimization
- Increasing global demand for fertilizers; highest order intake in Asia/Pacific and BRIC countries

Outlook

- FY 08/09: In spite of financial crisis stable business performance expected due to well balanced portfolio
- High visibility due to strong order book (€16.1 bn at Sep 30, 2008) with high earnings quality
- Global trends (especially energy, security and food) continue to drive business

Elevator: Value Drivers

EBT / ROCE track record

million € / %

2003/04-2004/05 in the Group structure valid at that time

* excl. EU fine €480 m

** excl. major nonrecurring items

Comments FY 2007/08

- Q4: Well on track with normalized quarterly earnings level
- FY: Very strong US activities, stable development in Europe, restructuring charges
- Strong EBT despite higher materials prices

Outlook

- FY 08/09: Significant earnings contribution through Performance Program 300, flanked by high order backlog
- Mid-term business profitability supported by performance program and growing services portion

Services: Value Drivers

EBT / ROCE track record

million € / %

2003/04-2004/05 in the Group structure valid at that time

Comments FY 2007/08

- Q4: Strong EBT development mainly driven by Materials Services International with high volumes and high prices especially in business with rolled steel and pipes/tubes
- FY: Boom in materials demand led to extraordinary business development
- Successful integration of Apollo Group and positioning of ThyssenKrupp Aerospace
- Announcement of Industrial Services divestment

Outlook

- FY 08/09: Challenging market environment anticipated
- Mid-term further improvement of business performance by focusing on materials businesses

Group Outlook 2008/09

Outlook 2008/09

- **Global GDP growth < 3 % expected**
- **FY 2008/09: Sales: significant decline**
- Tax rate: ~30%**

Major nonrecurring items FY 2008/09

- Project costs
 - TK CSA, Brazil
 - Steel/Stainless Alabama
- Results from divestitures

Segment outlook

Steel

- Price and volume risks partly cushioned by long-term contract structures and multiple premium qualities

Stainless

- Lower volume demand

Technologies

- Relatively high visibility regarding revenues and earnings from project business due to high order backlog

Elevator

- High service share and high order backlog drive revenues and earnings

Services

- Price and volume risk despite broad product portfolio and high service share

Group Initiatives 2008/09

Measures to stabilize earnings and cash flow

Group initiatives

Net working capital

- Systematic net working capital initiative will lead to significant decrease of working capital

Flexibility of investments

- Screening of capex program, prioritization and postponing investments in years after FY 2008/09

Performance improvement

- Detailed project organization to create significant performance improvement, e.g. reduction of SG&A

Portfolio optimization

- Planned divestments
 - Presta Steering
 - Presta Camshafts
 - Industrial Services
 - Special Products (minority stake)

Significant cash and cost savings

Maintain financial flexibility

“The information set forth and included in this presentation is not provided in connection with an offer or solicitation for the purchase or sale of a security and is intended for informational purposes only.

This presentation contains forward-looking statements that are subject to risks and uncertainties. Statements contained herein that are not statements of historical fact may be deemed to be forward-looking information. When we use words such as “plan,” “believe,” “expect,” “anticipate,” “intend,” “estimate,” “may” or similar expressions, we are making forward-looking statements. You should not rely on forward-looking statements because they are subject to a number of assumptions concerning future events, and are subject to a number of uncertainties and other factors, many of which are outside of our control, that could cause actual results to differ materially from those indicated. These factors include, but are not limited to, the following:

- (i) market risks: principally economic price and volume developments,
- (ii) dependence on performance of major customers and industries,
- (iii) our level of debt, management of interest rate risk and hedging against commodity price risks;
- (iv) costs associated with, and regulation relating to, our pension liabilities and healthcare measures,
- (v) environmental protection and remediation of real estate and associated with rising standards for real estate environmental protection,
- (vi) volatility of steel prices and dependence on the automotive industry,
- (vii) availability of raw materials;
- (viii) inflation, interest rate levels and fluctuations in exchange rates;
- (ix) general economic, political and business conditions and existing and future governmental regulation; and
- (x) the effects of competition.

Please note that we disclaim any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.”
